

**Gradyville.**

Candidates and drummers are plentiful in this section.

Dr. J. H. Grady was called to the bedside of Mrs. Yarberry, near Sparksville, one night last week.

Dr. Menzies, of Columbia, was called to see Thos. Gowen, of this place, one day last week.

We can boast of having two good schools in our city this Winter.

Mr. John M. Wilson continues to improve and we trust it will be only a few days until he will be out with us again.

J. H. Smith, one of our prosperous farmers is having several dwelling houses put up on his farm this Winter.

Miss Stapp, of Edmonton, a student of the L. W. T. S., of Columbia, has been on the sick list for several days at her aunts, Mrs. C. S. Bell, of our city.

Mrs. W. P. Flowers visited her relatives and friends at Edmonton a few days of last week.

Mrs. Thos. L. Grady, one of our oldest ladies has been in a critical condition for several days with a complication of diseases.

The students of the L. W. T. School, of Columbia, that live at this place and who have been at home for several days repairing their health, are all improving and will be out again in the near future.

Mr. Brack Cain, one of the best traders in this section made a trip to Green river last week and bought six mules and we will venture to say worth the money, all of them. He informed your reporter that he bought the best mule under one year old that was ever brought to this part of the county. He sold this colt to Mr. W. T. Do-honey, of near Columbia for \$115. Brack certainly knows a good mule when he sees one.

Messrs. R. L. Davis and W. C. Yates, two good farmers, of Portland, were in our midst one day last week and informed us that the farmers in that section were making an effort for a large crop of burley. We get the same report from every section. Our farmers certainly mean business this time.

Mr. Strong Hill, one of the noted business men of our town informed us a few days ago that he had a good blacksmith shop located right on Main street in our city and that he would sell on reasonable terms or rent, notwithstanding we have one extra smith that gets plenty of work to do and some to spare and while we would not throw a straw in the way of his success, we have found in thirty years of experience in the business affairs of this life that the most successful business men have strong competition. We take it that it has a tendency to make us get up and stay with our business better. Let us build our town up, there is always room for one more.

Rev. and Mrs. A. Rippetoe, of Clinton, Okla., who have been visiting relatives in this section for the past month or so, returned last week from a two weeks visit in Russell and the upper part of this county. They enjoyed their visit very much, met many of their old friends and relatives. Uncle Rippetoe informed us that he had lived to see seven of his generation. We

take it that there is very few people living today that can say this. While he is seventy years old, he can recall incidents that happened when he was a child and his memory is perfectly clear on events that took place when he was in his boyhood days. He certainly has a remarkable memory for a man of his age.

Our old friend, C. S. Walkup formerly of this place for the past year or so, has been located in the Lone Star State, was calling on his many friends in our community last week. We certainly would be glad if Mr. Walkup would reconsider matters and establish his tomb stone business in our town, as he knows when he worked at the business here in by gone days with uncle Weeden Yates to take orders that they had a first-class business and give general satisfaction and we would be glad to have them again.

The more the merrier. We must mention the Republican party has a new candidate from this section for jailer (to-wit) Pierce Keltner, a life long Republican, says he is out to win.

Mr. Wesley Morgan and Hadley Bros. sold and delivered a nice bunch of hogs to John Holladay Monday.

Porter Morgan and family, of Temple Texas, who have been visiting relatives at this place, will return home in a few days.

Cedar business is very dull in this section at present, and if all the cedar on the banks of Crocus is carried out by the water, according to my judgment there will be great damage to fencing and land.

Melvin Petty, of Picnic, went out a few days ago to bring in

his buckner and before reaching the yard found where a very large hog had been killed. Its head had been cut off and the rest of the hog carried away. I am in favor of taxing the county to buy three or four good blood hounds to be kept near the County Seat; employ some one to take charge of these dogs and keep them well trained and carry them to any part of the county needed. I think will stop a lot of meanness and will do the county much more good than a lot of tax we are paying. Let me hear from some one on this.

On Friday night last, Mr. Bart Hill, near Olga, a fine citizen, heard something disturbing his chickens. On going out he saw something in a tree similar to a bear, he stepped for his gun and let it drive, so the great bear fell to the ground. He called for his wife to bring a light, there is no danger now my gun is not loaded let's see what I have killed. They walked up and found a very large turkey gobbler belonging to his wife. He sent for the neighbors the next day to help eat it and told the joke on himself, "Ladies and gentlemen eat and be merry for accidents will happen."

A wheat and flour exchange has recently been started up at this place under the management of Mr. J. A. Williams, and it is a great accommodation to the neighborhoods.

**The Secret of Long Life.**

A french scientist has discovered one secret of long life. His method deals with the blood. But long ago millions of Americans had proved Electric Bitters prolongs life and makes it worth living. It purifies, enriches and vitalizes the blood, rebuilds wasted nerve cells, imparts life and tone to the entire system. Its a godsend to weak, sick and debilitated people. "Kidney trouble had blighted my life for months," writes W. M. Sherman, of Cushing, Me., "but Electric Bitters cured me entirely." Only 50c. at Paul Drug Co.

Most of our farmers will put out some tobacco this year, but the largest crop that will be set will be that of R. H. Montgomery. Our women folks will raise a large crop of turkeys. It pays to be shifty.
